Work Experience

Bulacan State University - Malolos City, Bulacan

PDO II / Frontend Developer | 06/2019 – Present

- Developed responsive and interactive frontend interfaces for internal university systems using Vue.js, React, Tailwind CSS, and RESTful APIs to support daily operations for faculty, staff, and students.
- Built reusable and modular UI components to improve frontend consistency, simplify maintenance, and reduce repetitive development work across multiple university systems.
- Collaborated with backend developers and cross-functional teams to integrate RESTful APIs, deliver production-ready features, and support system updates.
- Developed and maintained WordPress websites for university projects, including page creation, content updates, responsive layouts, and frontend customization.
- Maintained and enhanced internal systems and CMS-based platforms supporting academic, administrative, and daily operational workflows across the university.
- Provided frontend development support and technical guidance to junior developers and interns during system implementation and maintenance activities.

Setup Phils Inc. - San Juan City, Metro Manila

Junior Web Developer | 01/2018 – 04/2018

- Developed and maintained responsive website layouts across CMS platforms for desktop and mobile devices.
- Updated frontend components, forms, and UI sections based on client requirements and branding standards.
- Collaborated with design teams to implement visual assets and improve website usability.

Innov8tive Design & Development - Makati City

Junior Game Developer | 09/2014 – 06/2015

- Assisted in implementing UI assets and interaction elements based on project specifications.
- Participated in testing and debugging activities to identify and resolve interface-related issues.

Freelance Experience

Gateway Rural Bank Incorporated

Freelance WordPress Developer | 2024

- Designed and developed a responsive corporate website using Figma, WordPress, and Elementor, translating approved designs into desktop and mobile layouts.
- Handled the project from initial design through testing, hosting configuration, deployment, and ongoing website maintenance using Hostinger.
