PROFESSIONAL SUMMARY

Frontend developer with 3+ years of experience building Vue.js and React web applications for a state university, used by students, faculty and staff. Work with Vue 3, React, Next.js, TypeScript and Tailwind CSS, turning Figma designs into responsive interfaces and integrating REST APIs.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: Vue.js (Vue 3), React, Next.js, Tailwind CSS, Vuex, Zustand, TanStack Query, Zod, Vuelidate

APIs & Data: REST API Integration, Axios, Firebase (notifications), Postman

Tools: Git, Vite, Husky, Figma, WordPress, Elementor

Practices: Responsive Web Design, Component-Based UI Development, Role-Based Interfaces, Code Review

WORK EXPERIENCE

Bulacan State University | Malolos City, Bulacan, Philippines

Project Development Officer II (Frontend Development) 02/2023 – Present

- Built the frontend for four university systems with Vue 3, Vuex and Tailwind CSS and with React, TypeScript and Zustand: an attendance system and a document management system (both live), and a KPI dashboard and a service request system (both in training).
- Developed a student attendance app that runs inside an Android WebView, with Firebase notifications sent to parents.
- Translated Figma designs from the UI/UX team into responsive, role-based interfaces and integrated REST APIs with Axios, handling loading, error and form-validation states.
- Took over an unfinished vanilla JavaScript, HTML and CSS certificate and report generation tool and brought it to production.
- Set up the project structure for a React and TypeScript service request system and reviewed code written by an intern developer; guide student assistants assigned to me on frontend tasks.
- Contributing to a School Management System (in development) as one of three frontend developers, using Next.js, TypeScript, Zod, TanStack Query and Husky git hooks.

Computer Programmer I 01/2021 – 01/2023

- Updated website content and layouts in WordPress and supported layout styling and data-binding for user-facing forms.

Clerk 06/2019 – 01/2021

- Provided administrative support to the Planning and Development Office, preparing internal documents and reports.

Gateway Rural Bank Incorporated | Freelance

Freelance Web Developer (WordPress) 2024

- Designed the corporate website in Figma and built it in WordPress and Elementor with responsive layouts, handling testing, hosting configuration and deployment on Hostinger.

Setup Phils Inc. | San Juan City, Metro Manila

Junior Web Developer 01/2018 – 04/2018

- Assisted in building client websites on a content management system and updated banners, forms and dynamic sections based on client requirements.

Innov8tive Design & Development | Makati City

Junior Game Developer 09/2014 – 06/2015

- Updated game UI layouts, sprites and interface assets based on client feedback, and took part in testing and debugging.

EDUCATION

Bachelor of Science in Information Technology, Bulacan State University Graduated 2014

Master of Science in Information Technology (graduate studies), La Consolacion University Began 2020
