Work Experience

Bulacan State University - Malolos City, Bulacan

PDO II / Frontend Developer | 06/2019 – Present

- Developed responsive and interactive frontend interfaces for internal university systems using Vue.js, React, Tailwind CSS, and RESTful APIs to support daily operations for faculty, staff, and students.
- Built reusable and modular UI components to improve frontend consistency, simplify maintenance, and reduce repetitive development work across multiple university systems.
- Collaborated with backend developers to integrate RESTful APIs and ensure reliable data rendering, validation, and seamless frontend application workflows.
- Maintained and enhanced internal systems and CMS-based platforms supporting academic, administrative, and daily operational workflows across the university.
- Collaborated with cross-functional teams to deliver production-ready features, frontend enhancements, and system updates within project timelines.
- Provided frontend development support and technical guidance to junior developers and interns during system implementation and maintenance activities.

Setup Phils Inc. - San Juan City, Metro Manila

Junior Web Developer | 01/2018 – 04/2018

- Developed and maintained responsive website layouts across CMS platforms for desktop and mobile devices.
- Updated frontend components, forms, and UI sections based on client requirements and branding standards.
- Collaborated with design teams to implement visual assets and improve website usability.

Innov8tive Design & Development - Makati City

Junior Game Developer | 09/2014 – 06/2015

- Assisted in implementing UI assets and interaction elements based on project specifications.
- Participated in testing and debugging activities to identify and resolve interface-related issues.

Freelance Projects

Gateway Rural Bank Incorporated

Freelance WordPress Developer | 2024

- Developed and deployed a responsive business website using WordPress and Elementor from wireframing to production release.
- Configured domain setup, hosting environment, and deployment workflow using Hostinger.
- Delivered a user-friendly and maintainable platform for internal bank operations and content management.
